Help make **Castle Green Estate** more energy efficient!

Home Energy Action Together is a local initiative by volunteer members of the community aimed at promoting energy efficiency at home. We are a not for profit local organisation, and getting involved will not cost you anything. Instead, our aim is to provide a free and worthwhile service to you.

We are inviting all residents on CASTLE GREEN ESTATE to get involved by signing up to take one of three actions to manage energy use in their homes. Simply tick the actions that interest you, fill in your contact details, pop it in the post and we will get in touch shortly.

All entries received before 15th November will be entered into a prize draw to win £150 in prizes!

- YES I am interested in joining others in making the *BIG SWITCH* to green energy.**
- YES I am interested in receiving advice on taking energy efficiency action at home.**
- YES I would like to manage my energy use with a digital smart meter.**
