

Petition for local businesses to provide more plastic-free alternatives.

What do we want?

- To be able to choose reusable, refillable, compostable or recyclable products, and to say NO to single-use plastic.
- To help protect wildlife and leave a healthier planet for the next generation.
- To support local businesses and help them make the simple changes needed to reduce harmful plastic waste.

Why is this important?

- 320m tonnes of plastic are produced annually. Only 12% is recycled and a third ends up in the environment.
- 8m pieces of plastic enter the ocean everyday. If trends continue, by 2050 the ocean will contain more plastic than fish.
- Around 5000 pieces of plastic have been found per mile of Britain’s coast. It has a devastating impact on wildlife and damages tourism.
